

## SUMMARY

Experienced in basic programming languages with a knack for problem-solving. Adaptable and resilient, capable of handling pressure in diverse industry settings. Versatile and willing to take on any task, adept at thriving in various situations. Demonstrated ability to work effectively under pressure and deliver results. Skilled at navigating challenges and finding solutions, with a can-do attitude towards any project or assignment. Strong interpersonal skills enable effective collaboration and communication with individuals from all backgrounds.

## EDUCATION

### PVGCOE SSD Nashik

Bachelor of Engineering - BE, Electronic And  
Telecommunication  
2022 - 2026

### JDC Bytco, Nashik

Science  
2020 - 2022

## SKILLS

- Python
- C Programming
- C++ Programming
- Leadership
- Numpy
- Pandas
- Matplotlib
- Seaborn
- Turtle
- Java

## CERTIFICATIONS

- Python - Government of India
- C++ - Government of India
- C - Government of India
- Campus Recruitment Training In Java
- Campus Recruitment Training In C++

## LANGUAGES

- English
- Hindi
- Marathi

## PROFESSIONAL EXPERIENCE

### CodeAlpha

Cyber security | 04/2024 - 05/2024

- Hands-on Experience: Gain practical skills by working on real-world cybersecurity projects, including threat detection, risk assessment, and implementing security protocols.
- Professional Development: Learn from industry experts, participate in workshops, and build a strong foundation in cybersecurity principles and best practices.

### CodSoft

Data Science Intern | 03/2024 - 04/2024

- Data Analysis: Data Science involves analyzing and interpreting large datasets to uncover patterns, trends, and insights that can inform decision-making and drive business strategies.
- Machine Learning: A core component of Data Science is developing and applying machine learning algorithms to build predictive models, automate processes, and enhance data-driven solutions.

### Prodigy InfoTech

Cyber Security | 09/2023 - 10/2023

- Hands-on Experience: Gain practical skills by working on real-world cybersecurity projects, including threat detection, risk assessment, and implementing security protocols.
- Professional Development: Learn from industry experts, participate in workshops, and build a strong foundation in cybersecurity principles and best practices.
